SANOFI-AVENTIS BECOMES NPC READY WITH BIZCAPS ENTERPRISE E2

Sanofi-aventis, one of the world's leading pharmaceutical companies, today became NPC-ready using Bizcaps Enterprise E2 Product Data Management solution.

Present in more than 100 countries, sanofi-aventis employs around 100,000 employees worldwide. Global headquarters are in Paris, France. Sanofi-aventis is one of the top 5 pharmaceutical companies in Australia. With around 600 employees, sanofi-aventis has an Australian head office in Sydney, with offices in each state and in Auckland, New Zealand.

The NPC is the National Product Catalogue (NPC) is intended to be the single source of product data for tendering and contracting by State, Territory and Federal health departments and other buyers in the healthcare market.

Bizcaps Enterprise helps clients create and maintain product data for the NPC and GS1net, validated against industry and business rules and in the format that trading partners need.

Bizcaps Enterprise allows users to:

- quickly validate, create and publish product data on the NPC, GS1net or other datapools;
- efficiently maintain and update product data on these datapools;

- link a catalogue of product data to existing a user's ERP and other internal systems;

Enterprise also has powerful workflow capabilities that will let users streamline and manage product data collection and publication processes.

Enterprise is powered by the Bizcaps GS1net Connect engine, the first middleware to be certified for use with GS1net and recently recertified for GS1net v 2.0.

Enterprise is part of a range of Product Lifecycle Management, Product Data Management and Business Process Management solutions available from Bizcaps.
